5. CALL TYPES AND CHARGES

There are a number of different Call Types and Value-Added Services available with the 3G/GSM Service.

(a) Categories of Charges

There are 5 general categories of charges for the 3G/GSM Service:

- (i) Connection / Reconnection charges;
- (ii) Monthly Access Charges;
- (iii) Call charges;
- (iv) Value Added Services and Special Calls; and
- (v) other charges.

All charges are subject to change. All prices are quoted including GST. Actual charges may vary on your statement as charges are rounded to the nearest cent before GST is included.

In some circumstances business and other organisations may be entitled to claim an input credit tax on GST paid. Please refer to your financial adviser for details.

(i) Connection / Reconnection Charges

When Connecting or Reconnecting to CMOBILE, Customers may be required to pay a Connection fee. From time to time, CMOBILE may have offers which reduce or remove the Connection / Reconnection fee. Customers should consult the relevant Call Plan to determine whether a Connection / Reconnection fee is payable.

(ii) Monthly Access Charges

A monthly access fee, being the Minimum Monthly Fee, is for the costs associated with accessing the Service Network, including access to the Value Added Services and Special Calls.

For the period from Connection until You commence Your first full billing cycle, monthly access fees will be billed on a pro rata basis. For the avoidance of doubt, any Included Call Value for the first billing cycle will also be prorated for that period. Monthly access fees are payable for each full monthly billing cycle in advance. Call charges are billed at the end of each billing cycle in arrears.

(iii) Call Charges

Customers will be charged only for successfully connected Voice Calls. For example, there is no charge for Voice Calls to an engaged number, however Voice Calls that are successfully connected are charged regardless of the quality of that Voice Call. Voice Calls are charged from the time the Call is answered at the number requested.

Voice Calls are charged per minute (or part thereof) unless another billing increment is specified in the Call Plan for that specific Call Type. All Call Rates and charges are subject to rounding from three decimal points to two decimal points.

Most international direct dial and Special Calls are charged per minute (or part thereof) unless another billing increment is specified in the Call Plan for that specific Call Type. Flagfall is charged on most international direct dial and Special Calls.

Messaging Call Types are charged on successful submission of the message, regardless of whether the message is actually delivered, as these services are store and forward services and there are many factors outside of the control of CMOBILE which may affect delivery, including the availability of the message recipient and the operation of any third party networks.

Data Call Types are charged for the use of Data services, regardless of the direction of usage (i.e. both data uploads and data downloads usually incur Call charges). Data Call service charges may be incurred in addition to the charges for other Call Types, where those other Call Types rely on Data services for their operation.

CMOBILE may waive any charge in its absolute discretion. Charges for all Call Types are Your responsibility contractually as You hold the Agreement with CMOBILE for the Service, irrespective of whether those Calls were made by You or another person.

(iv) Calls to Value Added Services and Special Calls

Calls made to Value Added Services and Special Calls are charged as per the rates advertised in the relevant Call Plan.

(v) Other Charges

In certain circumstances, CMOBILE will charge You additional charges. These charges are subject to change by CMOBILE at any time in its sole discretion.

Additional charges include (but are not limited to):

- bill reprint fee (\$5.00 per reprint): where You request that another copy of the bill is printed;
- change mobile number fee (\$20:00 per change): where You request a change to your mobile number. CMOBILE will not charge You a change mobile number fee in circumstances where You have a genuine need for a different mobile number outside Your control (for example, to avoid unwelcome or threatening calls);
- dishonoured cheque fee (\$15.00 per payment): where Your payment to be collected by CMOBILE has been rejected by Your financial institution, CMOBILE may charge a fee to recover the administrative costs of pursuing payment;
- early termination fee (calculated as the sum of the remaining unpaid access fees for the agreed minimum Contract Term): this fee is incurred where You Disconnect prior to the expiry of the agreed minimum Contract Term;
- late payment fee (\$10.00 per month): where You do not pay Your monthly bill by the due date, CMOBILE may charge a late payment fee to recover the administrative costs of pursuing payment;
- Reconnection fee (\$6.90 per Service): where You request that Your Service is Reconnected within two (2) weeks of Disconnection, and CMOBILE in its sole discretion consents to the Reconnection of the Service. CMOBILE will not charge a Reconnection fee if the Service was Disconnected due to any error or failure by CMOBILE;
- replacement SIM fee (\$10.00 per SIM): where You request the replacement of Your SIM card in circumstances where the SIM card is determined by CMOBILE not to be faulty (for example, where the SIM has been lost or damaged by You);
- transfer of ownership (\$10.00 per transfer): where You request that the ownership of the 3G/GSM Service is transferred to another person; and
- unbarring fees (fees vary according to CMOBILE's rules): where the 3G/GSM Service has been barred previously (whether at Your request or by CMOBILE) and You request that it be unbarred. Call CMOBILE customer care on 1300 545 000 for details. CMOBILE will not charge an unbarring fee if the Service was barred due to any error or failure by CMOBILE.

CMOBILE reserves the right to require You to pay a security deposit before being Connected, or to enable International Roaming, or to enable access to some Special Calls. The security deposit may be applied by CMOBILE against any outstanding fees and charges for the Service should You fail to pay any due amounts.

(b) Charging Periods

For the 3G/GSM Service the same rate for Calls applies at all times unless explicitly stated otherwise for a specific Call Type set out in the Call Plan.

(c) Call Plans

The standard Call Plans offered by CMOBILE in connection with the supply of the 3G/GSM Service generally consist of:

- a Connection charge;
- a Monthly Access Charge; and
- Call charges.

Full details of the terms and conditions for the Call Plan are set out in Part B, and on CMOBILE's website at www.cmobile.com.au. Charges are inclusive of GST (where applicable) and are subject to change.

(d) International Roaming

International Roaming is available to You if CMOBILE approves Your access to this capability based on credit criteria.

If You are granted access to International Roaming, You will be charged at the rate levied by the overseas carrier plus a CMOBILE charge. All incoming Calls while roaming, including without limitation Voice, Messaging and Data Call Types also incur these International Roaming charges. To activate International Roaming, and for information on Call Rates please contact CMOBILE customer care on 1300 545 000 at least 3 days prior to departure. A security deposit may be required. International Roaming charges are GST-free.

International Roaming is expensive, and You should only request access to International Roaming if You have the financial capacity to pay for the services You use, and You diligently monitor Your inbound and outbound Voice, Messaging and Data Call activity to avoid high charges.

(e) GST

- (a) The consideration payable for any Taxable Supply of any goods, services or other things under this Agreement is inclusive of any GST.
- (b) The GST will be charged at the GST Rate.
- (c) If at any time after 1 July 2000, the GST Rate is amended, then the consideration payable for any Taxable Supply of any goods, services or other things under this Agreement will be adjusted to give effect to that variation from the date of the variation's imposition.

PART B – CMOBILE CALL PLANS

The Critical Information Summary (CIS), prepared in accordance with Chapter 4 of the TCP for each of the CMOBILE Call Plans, can be downloaded from our website at www.cmobile.com.au, or alternatively by contacting CMOBILE customer care on 1300 545 000, or by email to support@cmobile.com.au.

Detailed information about the current Call Rates for international direct dialled Calls, Value Added Services, and Special Calls for a Call Plan is available at www.cmobile.com.au, or alternatively by contacting CMOBILE customer care on 1300 545 000, or by email to support@cmobile.com.au.

IMPORTANT NOTICE

The Call Rates for international direct dialled Calls, Value Added Services, and Special Calls for a Call Plan are subject to variation by CMOBILE at any time in its sole discretion. International direct dialled Calls, Value Added Services, and Special Calls for a Call Plan are generally subject to third party input costs outside the control of CMOBILE, and it is a term of each Call Plan that the Call Rates for these Call Types can be varied by CMOBILE at any time.

International direct dial and premium service Special Calls can be barred on request to CMOBILE at any time. To bar these services, You can contact CMOBILE customer care on 1300 545 000, or by email to support@cmobile.com.au.

The Call Rates for International Roaming are subject to exchange rate variations, and so whilst an estimate of the costs for inbound and outbound Calls from overseas networks can be made prior to activating International Roaming, the actual cost of those Calls can vary significantly. International Roaming charges are set by the overseas network, and as such the International Roaming charges can vary significantly between networks notwithstanding the fact that the different networks operate in the same locations in the overseas country. You can normally manually select an International Roaming network using the network selection feature available in Your handset.

Special Calls involving premium services are expensive, whether You are making voice calls to premium service numbers, or You are using messaging to and from premium service numbers. Many premium services charge You to receive content to Your handset, which in some circumstances may be set up on a regular subscription basis. Data charges may apply in addition to any premium services charges. If You wish to avoid premium service charges, please contact CMOBILE to have premium service barred from your Service.
