### **SMS usage alerts**

To help you keep track of your mobile data usage from month to month, we send you SMS alerts when you reach 50%, 85% and 100% of your included plan allowance for data. The alerts are not real time and can be delayed by up to 48 hours. These alerts do not include usage outside of Australia. If you have used 100% of your included data allowance, excess usage charges apply at a rate of 1c per MB. For example, if you used 1024MB or 1GB of excess data, the cost would be \$10.24 for this excess data.

### **International Roaming Warning**

Warning: International Roaming is available to credit approved customers on request. International Roaming is very expensive for all types of calls, messaging and data. If you are concerned about the cost of International Roaming, you should not enable this service and should enquire about a local service in the country you are travelling in. Customers who use International Roaming should be particularly careful about data roaming costs. Unless required, you should ensure data roaming is not enabled on your handset or device. International Roaming call charges normally take much longer to appear on your account. You should carefully monitor your usage to avoid high bills.

### **Premium Services Warning**

Warning: Premium Services by their nature are expensive. You should carefully read the terms and conditions of any Premium Services you use, in particular the terms and conditions of any subscription based Premium SMS Services. You can stop specific Premium SMS Services by sending a SMS reply with the word "STOP". You can bar access to all Premium Services at any time by contacting CMOBILE customer care.
